PROFILE

Dedicated and skilled Frontend Engineer with **2.8 years** of experience in ReactJS and modern web technologies. Proficient in designing scalable, efficient, and modular user interfaces for web and mobile platforms. Adept at collaborating with cross-functional teams to deliver user-centric products. Passionate about creating seamless user experiences and solving complex challenges with innovative solutions.

EDUCATION

Indira Gandhi Institute of Technology, Sarang
B-tech in Metallurgical and Materials Engineering
8.02 CGPA

2021

SKILLS

- **Programming Languages:** JavaScript (ES6), HTML5, CSS3/Sass
- **Frameworks & Libraries:** ReactJS, Redux, Next.js, React Native, AngularJS
- **Tools & Platforms:** AWS, REST APIs, NPM, GIT, CI/CD pipelines
- **UI Libraries:** Material Design, Chakra UI, Tailwind, Bootstrap
- **Methodologies:** Agile Development, TDD, UX Collaboration
- **Soft Skills:** Excellent communication, self-direction, adaptability to dynamic environments

WORK EXPERIENCE

Associate Consultant

2022 – present | Bhubaneswar, India

Invincix Solution Private Limited

- Developed high-performance web applications using ReactJS, adhering to modular and scalable architecture principles.
- Led the creation of user-friendly interfaces for carrier and business-focused portals, enhancing usability and engagement.
- Collaborated with cross-functional teams to integrate systems and streamline workflows, ensuring reliable and seamless project execution.
- Implemented CI/CD pipelines, ensuring efficient delivery cycles and optimizing application performance.
- Conducted code reviews and enforced coding standards to maintain high-quality deliverables.
- Developed dynamic, real-time features using AWS-based services to handle data-intensive applications.
- Built responsive, cross-browser compliant designs, integrating with UX and design teams for consistent user experiences.

PROJECTS

Scheduler Application

Technology Stack: React, CSS, NPM, API integration

- **Description:**
 - Developed a scheduling application with Month, Day, and Week views.
 - Features include recurring events, daily agendas, and notifications for streamlined meeting management.
 - Promotes collaboration and accessibility across various devices.

Whiteboard Application

Technology Stack: React, CSS, NPM, API integration, CI/CD pipeline

- **Description:**
 - Created a dynamic whiteboard for real-time collaboration, supporting drawing, typing, and sticky notes.
 - Ideal for remote teams and virtual classrooms, with continuous updates for reliability.
 - Enhances interactive visual communication.

GDC Mapbox

Technology Stack: React, CSS, NPM, API integration with Mapbox

- **Description:**

sandeepbeherakbl@gmail.com

- Developed an interactive map showcasing global projects with real-time status monitoring.
- Provides detailed data visualization and intuitive navigation for strategic project management.
- Ensures regular enhancements through a CICD pipeline.

Office Management System

Technology Stack: Next JS, CSS, Tailwind, NPM, API integration

- **Description:**

- Developed an office management system with role-based access control and graphical data representation.
- Features include note addition and milestone tracking, promoting efficient communication and collaboration.
- Supports a paperless office environment.

Blood Donation App

Technology Stack: React Native, SASS, NPM, API integration

- **Description:**

- Built a blood donation app for requesting and donating blood, connecting donors within a 20 km range.
- Features multi-language support and seamless login authentication.
- Emphasizes user-friendliness and accessibility, with unit testing for reliability.

PERSONAL QUALITIES

- Strong problem-solving skills
- Excellent communication and teamwork abilities
- Adaptability to fast-paced development environments
- Detail-oriented with a focus on delivering high-quality code
- Passion for continuous learning and self-improvement
