PROFILE

I am a dedicated and skilled UI/UX Designer with 3 years of experience in crafting intuitive and visually appealing user interfaces. Proficient in designing scalable, user-centric, and efficient digital experiences for web and mobile platforms. Adept at conducting user research, wireframing, prototyping, and collaborating with cross-functional teams to deliver seamless interactions. Passionate about enhancing user experiences through design thinking and innovative solutions.

EDUCATION

Indira Gandhi Institute of Technology, Sarang
B-tech in Metallurgical and Materials Engineering
8.02 CGPA

2021

SKILLS

Design

Ideation • Userflows • Information Architecture • Design thinking • UI graphics • Wireframing • Interface design • Advanced Prototyping • Motion Design • Illustrations

Research

User interviews & surveys • Usability & Concept Testing • Task Analysis • A/B Testing • Diary study • Qualitative & quantitative analysis • Personas • Storyboarding

Programming

HTML • CSS • Javascript • React • Redux • React Native • NodeJS

Tools

Figma • Adobe Creative Cloud • Jira • VS code

WORK EXPERIENCE

Associate Consultant

2022 – present | Bhubaneswar, India

Invincix Solution Private Limited

- Designed and developed intuitive user interfaces, enhancing user experience through wireframing, prototyping, and interactive design.
- Led the UI/UX design for carrier and business-focused portals, improving usability, engagement, and accessibility.
- Conducted user research and usability testing to refine designs and create seamless interactions.
- Collaborated with developers to ensure design consistency, accessibility, and responsiveness across web and mobile platforms.
- Built and implemented design systems to maintain visual coherence and improve development efficiency.
- Developed responsive, pixel-perfect frontend components using ReactJS, ensuring seamless user interactions.
- Integrated animations and micro-interactions to enhance user engagement and interface fluidity.
- Worked closely with cross-functional teams to align design decisions with business goals and user needs.
- Optimized UI performance by implementing best practices in design and frontend development.

PROJECTS

Scheduler Application

Technology Stack: Figma, Protopie, User Research, Material Design, React, CSS, NPM, API integration

Description:

- Designed an intuitive scheduling interface with Month, Day, and Week views, focusing on usability and accessibility.
- Conducted user research and usability testing to optimize event creation and management.
- Created wireframes and interactive prototypes in Figma and Protopie for seamless navigation.

sandeepbeherakbl@gmail.com

- Implemented Material Design principles to maintain visual consistency.
- Developed responsive frontend components using React, ensuring smooth performance across devices.

Whiteboard Application

Technology Stack: Figma, Protopie, Adobe XD, User Testing, React, CSS, NPM, API integration, CI/CD pipeline

Description:

- Designed a real-time whiteboard interface with an intuitive drawing, typing, and sticky notes system.
- Created high-fidelity prototypes using Protopie for realistic interaction testing.
- Conducted usability testing to refine collaboration workflows and improve engagement.
- Designed a scalable UI system ensuring a clean and accessible user experience.
- Assisted in frontend integration for a smooth and performant interactive whiteboard.

GDC Mapbox

Technology Stack: Figma, Material Design, User Research, React, CSS, NPM, API integration with Mapbox

Description:

- Designed an interactive map-based interface showcasing global projects with real-time status monitoring.
- Conducted user research to optimize navigation and data visualization for better decision-making.
- Developed wireframes and UI prototypes, ensuring a seamless and intuitive user journey.
- Applied Material Design guidelines to enhance accessibility and consistency.
- Built responsive UI components in React for dynamic map interactions.

Office Management System

Technology Stack: Figma, Protopie, UX Research, Next.js, CSS, Tailwind, NPM, API integration

Description:

- Designed a modern office management system with an intuitive role-based access interface.
- Conducted extensive user research to understand workflow inefficiencies and improve team collaboration.
- Created wireframes, high-fidelity prototypes, and interactive mockups for a smooth UX.
- Developed an accessible UI following WCAG guidelines for inclusivity.
- Provided frontend support to integrate the design system with Next.js and Tailwind.

Blood Donation App

Technology Stack: Figma, Protopie, User Testing, React Native, SASS, NPM, API integration

Description:

- Designed an intuitive mobile experience for blood donors and recipients, ensuring ease of use.
- Focused on accessibility and multi-language support for a wider reach.
- Conducted usability testing to refine the user journey from registration to donation requests.
- Created wireframes and interactive UI prototypes for seamless navigation.
- Built React Native frontend components, ensuring a smooth and engaging mobile experience.

PERSONAL QUALITIES

- **Strong problem-solving skills** with a user-centered approach to tackling design and development challenges.
- **Excellent communication and teamwork abilities**, collaborating effectively with designers, developers, and stakeholders.
- **Creative design thinking**, focusing on crafting intuitive, aesthetically pleasing, and user-friendly experiences.
- **Adaptability to fast-paced development environments**, balancing design innovation with technical feasibility.
- **Detail-oriented mindset**, ensuring high-quality design and clean, maintainable code.
- **Passion for continuous learning and self-improvement**, staying updated with the latest UI/UX trends and frontend technologies.
